

Machine Learning Interview Questions Collection.Pdf

- What is the difference between supervised and unsupervised learning?
- Explain overfitting and underfitting.
- What is regularization in machine learning?
- Explain bias-variance tradeoff.
- What are common evaluation metrics for classification?
- What is cross-validation?
- Explain gradient descent.
- What is the difference between bagging and boosting?
- Explain the concept of feature engineering.
- What is the difference between precision and recall?
